PROJECT NAME:	AI FAQ Assistant API
MAXIMUM:	2Marks

Problem - Solution Fit:

The AI FAQ Assistant API solves the problem of slow and inefficient customer support by providing an intelligent FAQ management and AI-powered answer generation system.

Purpose

- Solve customer problems by providing quick and accurate answers through an AI-powered FAQ system.
- Reduce the time spent by support teams answering repeated customer questions.
- Improve customer satisfaction through secure login, FAQ management, and AI-generated responses.
- Enable users to search FAQs and find relevant information using semantic search.
- Help administrators, update, and manage FAQs efficiently.
